Tag or Microchip

The Graham County Animal Control Facility and the Humane Society of Southern Arizona...

Want to express the importance of tagging or microchipping dogs and cats or even writing your phone number on their collar with a marker and get them registered so GCACF can get your animals back home.

*If your pet is missing, please come by and see if it is here.
We cannot be sure if it's your pet if you call.*

We are not a rescue. We are getting too many strays. HSOSA and AAWL cannot save them all. We Need your help.
